

WINNIPEG SLIDE CLUB

254

September 1976

1. 76-133 (2 slides) Premature female newborn, aged 3 hours, whose arterial pO₂ 13 mmHg, despite mechanical ventilation with 100% oxygen.
Helen Chambers
 2. 76S-358-1 A 4 year old girl with fever and enlarged node for 1 month.
Helen Chambers
 3. 4806-76 Scapular skin biopsy in a 46 year old lady. B. Johnston
 4. 9549-74 A.M. aged 67 Biopsy of R. parietal lobe. R. Stark
 5. 6770-76 W.M. aged 61 history of malabsorption. On laparotomy, mesentery thickened and nodular. Biopsies of mesentery were taken.
R. Stark
 6. 76-6817, 75-5190 70 year old male with recurrent lesions of skin and oral mucosa. D. Morrow
 7. 76-2903 A 78 year old lady had cardiac failure and experienced abdominal pain. At laparotomy a segment 16 cm long stenotic jejunum was removed.
A. Lorimer
-
8. 76B-142 35 year old hypertensive male presenting with features of pontine hemorrhage D. Buntine
 9. 76B-148 70 year old man with frontal lobe lesion. D. Buntine
 10. 76-14989 64 year old man with a history of recent sight loss, weakness and easy bruising. Splenomegaly, Hb 8.5 gm%, WBC 5250 with 97% abnormal lymphoid cells, and platelet 27,000. H. Benediktsson
 11. 76-15007 Female 28, incidental finding at abdominal operation.
 12. 76B-136-10 Vertebra from 66 year female R. Banerjee
 13. 75-8615 72 Year old woman with a one year history of pelvic mass. The biopsy is from the omentum.
 14. CM 3876-76 Tissue from a group of 5 week old broiler chickens, submitted from examination from a flock of 1450 birds. The flock complaint was of depression and high mortalities. L. Illie
 15. C 3125-76 A 9 year old, female dog was observed to have a lesion in the spinal end in the area of C5-L6 after a 3 week history of progressive descending paralysis. G. Spearman
 16. 75-1030 A mass removed from a 85 year old lady's armpit.
My case
 17. S-28-69 The biopsy was taken from an abdominal mass. The patient aged 72 year, had abdominal distension and pain for an undetermined duration. This case is from the Victoria General Hospital, through Dr.H. Ross's courtesy.
My contribution

SLIDE CLUB MEETING # 40

254

65 Cordova St.

24 SEPT 1976

PRESENT: Drs. L. Lu, L.E. Lillie, J. Neufeld, R. G. Stark, S. C. Lauchlin,
R. Banerjee, A. Lorimer, B. Johnston, H. Chalmers, D. Morrow,
H. BENediktsson, G. Spearman.

ABSENT: Drs. Buntine, C. Langston.

Dr. D. Buntine	76B142	35 yr old male with symptoms of pontine hemorrhage	Pilocytic astrocytoma	8
	76B148	70 year old with frontal lobe lesion	Angiomatous meningioma	9
Dr. D. Morrow	76-6817 75-5190 75-5190-3	70 year old with recurrent lesions skin and oral mucosa	Basal cell adenoma minor salivary gland B.C.C. skin	6
Dr. H. Benediktsson	76-14989	60 year old with splenomegaly, hb 8.5 WBC 5250 and 97% abnormal lymphs and thrombocytopenia	Hairy cell leukemia <i>bone marrow</i>	10
Dr. R. Banerjee	76-15007-1 76B136-10	28 year old female 66 year old female, tissue from <u>vertebra</u>	Luteoma gravidarum Irradiated metastatic breast carcinoma, desmoplastic reaction	11 12
Dr. S. C. Lauchlin	75-8615	72 year old woman with pelvic mass Biopsy omentum	Pseudomyxoma peritonei	13

Dr. R. Stark	9549-74	67 year old Biopsy R parietal lesion	Gemistocytic astrocytoma	4
	6770-76	61 yr old with malabsorption Biopsy mesentery	Diffuse lymphoma with plasma cells Etiology uncertain	5
Dr. B. Johnston	4806-76	Skin biopsy scapular area in 46 year Old female	Malignant lymphoma of skin	3
Dr. H. Chalmers	A76-133	Premature female infant, age 3 hrs, Arterial PO ₂ 13 mm Hg despite 100% oxygen	Potter's syndrome <i>lung kidney</i>	1 2
	76S3581-1	4 year old girl lymphadenopathy for 1 month	Proven T.B. resembling Cat scratch disease	
Dr. L. Lu	75-1030	Mass from armpit of 85 year old lady	Sweat gland adenoma	16
	S-28-69	Biopsy abdominal mass 72 year old	Leiomyoblastoma stomach	17
Dr. A. Lorimer	76-2903	50 year old female with history of C.C.F. who developed jejunal obstruction	Segmental ischemia of jejunum.	7
Dr. L. Lillie	CM3897 76	Tissue from large flock of 5 wk old broiler chickens with high mortality	Dual virus infection a) infectious bursal disease with immuno- incompetence b) adenovirus hepatitis with inclusions	14
